PROFESSIONAL SUMMARY

Detail-oriented M.Sc. Business Informatics graduate with a specialization in **Data Science** and **5 years** of hands-on experience in **Software** and **AI Development** — including **Cloud-Based Performance testing, Data Engineering, Machine Learning, CI/CD Pipelines,** and **GenAI**. Skilled in applying **Python** to real-world challenges for over 4 years. Seeking a role in these domains to contribute to impactful, data-driven solutions.

SKILLS

Programming Languages:

Python | Java | SQL | JavaScript

DevOps & Project management :

Agile | Scrum | Linux | Github | Docker | Azure | CI/CD | Jenkins | Jira | LaTeX

Database management & Visualization :

MySQL | SQLite | PostgreSQL | Power BI | Elasticsearch | Kibana | Matplotlib | MS Excel

Data Science & Machine Learning :

NLP | LLM | Pandas | Scikit-learn | Numpy | TensorFlow | Pycharm | PyTorch | Keras | Transformers | Hugging Face | Faiss | Jupyter Notebooks

Soft Skills :

Adaptability | Detail-Oriented | Resilience | Cross-functional collaboration | Analytical Thinking

PROFESSIONAL EXPERIENCE

Feb 2025 - Aug 2025
Remote

GenAI Prompt Engineer (Python, German)| Outier AI | Freelance, Part-time

- Creation of Python-specific prompts for training a Generative AI model using Reinforcement Learning with Human Feedback (RLHF).
- Development of prompts for code generation, refactoring, debugging, test case creation, and solution analysis.
- Evaluation of AI responses with respect to adherence to Instruction following, Truthfulness, Code quality, Localization and Writing style.
- Creation of high-quality “Gold-Responses” and correction of model outputs to optimize Python-related model performance.

Sep 2022 - Sep 2024

Maternity break

Jun 2019 - Dec 2019
Mannheim, Germany

Working Student, Artificial Intelligence | Alugha GmbH

- Development of speech-to-text models (German, English, Spanish).
- Implementation of end-to-end deployment pipelines through containerization of AI models and integration of NATS on production servers.
- Preparation and preprocessing of large-scale audio datasets for training and fine-tuning speech recognition models in multiple languages.
- Improved the accuracy of the Spanish speech-to-text model by 30% through refinement of acoustic data and optimization of the language model.

Apr 2013 - Apr 2016
Hyderabad, India

Software Quality Engineer | Dell EMC² (via Nexii IT Labs)

- Provision and management of EMC² cloud storage environments : VPlex/VE, comparable to AWS deployments.
- Analysis of VPlex/VE builds for stability and performance optimization through extensive automated regression testing.
- Leadership of performance regression testing for three major releases.
- Performance report generation to promote cross-functional collaboration.
- Awarded ***Best Performer*** in 2015 for outstanding achievements in the area of performance regression testing.

Feb 2012 - Feb 2013
Hyderabad, India

Jr. Software Engineer | Visu Technologies

- Development and maintenance of Android applications, with a focus on UI optimization for an improved user experience.
- Design and implementation of websites to create appealing user-friendly designs.
- Collaboration within the team to develop new features and ensure mobile and web applications function across various devices and platforms.

EDUCATION

Feb 2018 - Jul 2022
Mannheim, Germany

Master of Science in Business Informatics , Focus: Data Science
University of Mannheim

Projects:

- Master Thesis: Empirical Comparison of Data Retrieval methods for Table Augmentation (BM25, NLP- BERT, Word2Vec, GloVe)
- Distributed Adaptive Authentication System
- Data Analysis on Crowdfunding Platform JINGDONG
- Web Data Integration of Laptops from E-commerce Websites
- Fraud Detection at Self-Checkouts in Retail

Oct 2007 - Jun 2011
Hyderabad, India

Bachelor of Technology in Computer Science & Engineering
Jawaharlal Nehru Technological University

- Bachelor Thesis: Truth Discovery with Multiple Conflicting Information Providers on Web

TRAINING & ACHIEVEMENTS

Nov 2025
Online, Germany

Microsoft Azure Data Fundamentals Certification, DP-900
Pearson VUE

Dec 2024 - Sep 2025
Online, Germany

Occupational German course - B2/C1 (Berufssprachkurs) | Part-time
Verein zur Förderung der Berufsbildung e.V.

Jul 2019
Munich, Germany

Presented Process Mining Case Study on Celonis IBC during M.Sc
Celonis SE

Oct 2016 - Oct 2017
Bietigheim, Germany

German Integration and Orientation course - B1
Verein für Integrations- und Bildungsarbeit e.V.

Nov 2016
Online, Coursera

Python for Everybody Specialization
University of Michigan

LANGUAGES

English : Native level
German : Working proficiency (B2/C1)
Hindi : Fluent
Telugu : Native
